

$$u = 1$$

The diagram consists of a large square frame. Inside this frame, there is a smaller, centrally located white square. The area between the outer frame and the inner white square is filled with a dense, repeating cross-hatched pattern of small black dots. The label $u = 1$ is positioned at the top center of the image, above the main square. The label $u = 0$ is positioned in the center of the white square.

$$u = 0$$
