Theorem

$e^{i\pi} + 1 = 0$

Proof.

Trivial. □
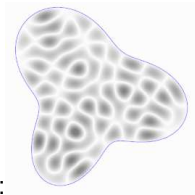

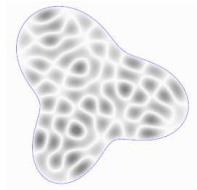

Here I'll put a figure after a line break:
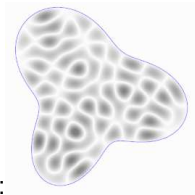

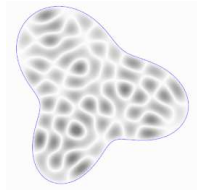

Including figures

Here I'll put a figure after a line break:

Here I'll put text then a figure:
Notice that it doesn't fit nicely.

Including figures

Here I'll put a figure after a line break:

Here I'll put text then a figure:
Notice that it doesn't fit nicely.

Here's a better way:

This is a very interesting figure which I can comment about in a `minipage` environment. Notice it is nicely aligned
