

Figure 1: Sierpinski triangle created using the TikZ package

L^AT_EX is a document preparation system that uses the T_EX typesetting program. You can create beautifully formatted articles, presentations, posters and graphics like Figure 1 above. In this 3-part series, we will get you set up and using L^AT_EX like a pro in no time.

Installation Assistance

Drop in any time during the hour for help with installing a T_EX system on your computer! We'll get you set up using L^AT_EX and give you templates and tips to write your first document.

Date Tuesday, March 25, 2014
Time 4-5pm
Location 105 Kemeny

L^AT_EX Crash Course

By the end of 90 minutes, you will have the skills necessary to produce a professional-looking document containing graphics, equations, and a bibliography.

Date Tuesday, April 1, 2014
